

Dear Maryland State Employees and Retirees:

As the Secretary of the Maryland Department of Labor, Licensing and Regulation, I am excited and honored to be involved with the Maryland Charity Campaign as the Assistant Co-Chair! As we begin this year's campaign "We Are All Connected", I would like to share with you why I believe the Maryland Charity Campaign is the best way to build, support and maintain our communities.

Whether it's providing opportunity to Maryland's youth, lending support to a family in a crisis, or providing care for a loved one who has fallen ill, the charities of the Maryland Charity Campaign are connected to individuals in every community statewide. Everyday, someone's life is changed for the better because of the support they received from one of the charities.

I feel a great sense of pride knowing that my contribution is helping to make a positive impact in the life of a fellow Marylander. The Maryland Charity Campaign helps support individuals, strengthen families and maintain our communities. Contributing to the Maryland Charity Campaign gives you an opportunity to directly enrich the lives of families, friends and neighbors in need.

Please join me in making a contribution to this year's Maryland Charity Campaign. For your convenience, you may donate online at www.mdcharity.org. There simply is no better way to make a difference and help so many people in need right here in our great state of Maryland.

Very truly yours,

Alexander M. Sanchez
